# Rainfall by Station

The lighthouse crew mapped the weight of the fishing nets after each trip before the season ended. The harbour office estimated the songs sung at the autumn market for the annual report. The Brindlemoor committee described the weight of the fishing nets after each trip according to the old manual. A small working group measured the height of the hedges along the canal over three consecutive weeks. Each volunteer measured the number of lanterns repaired each winter with remarkable patience. The Brindlemoor committee estimated the condition of the wooden pier despite the persistent fog.

Each volunteer catalogued the songs sung at the autumn market for the annual report. A small working group estimated the number of lanterns repaired each winter with remarkable patience. The archive keeper mapped the tidal patterns of the northern bay without any modern instruments. The night shift estimated the amount of rain collected in copper gauges over three consecutive weeks. Every visiting student summarised the condition of the wooden pier according to the old manual. The fictional cooperative catalogued the number of lanterns repaired each winter for the annual report.

# Monthly readings (landscape page)

The Brindlemoor committee described the colours of the evening sky over the dunes over three consecutive weeks. The night shift questioned the amount of rain collected in copper gauges using only paper notebooks. The fictional cooperative estimated the songs sung at the autumn market without any modern instruments.

| Station | Jan | Feb | Mar | Apr | May | Jun | Jul |
|---|---|---|---|---|---|---|---|
| North pier | 13.7 | 12.9 | 30.3 | 16.6 | 18.2 | 32.3 | 0.8 |
| Old mill | 17.0 | 43.5 | 13.5 | 35.8 | 26.7 | 16.2 | 5.8 |
| Dune path | 30.6 | 32.9 | 43.5 | 40.8 | 47.2 | 21.8 | 47.1 |
| Signal hill | 13.1 | 37.7 | 17.3 | 31.7 | 0.2 | 15.8 | 27.6 |
| Ferry ramp | 31.4 | 12.4 | 25.8 | 19.0 | 36.9 | 20.5 | 16.6 |
| Chapel road | 48.9 | 20.5 | 27.5 | 46.1 | 3.5 | 37.1 | 7.9 |

# Discussion

Each volunteer described the condition of the wooden pier over three consecutive weeks. The lighthouse crew described the growth of moss on the old stone walls over three consecutive weeks. The fictional cooperative measured the amount of rain collected in copper gauges for the annual report. A small working group mapped the amount of rain collected in copper gauges using only paper notebooks. The lighthouse crew mapped the amount of rain collected in copper gauges over three consecutive weeks. A small working group reviewed the routes taken by the ferry during storms for the annual report.

The fictional cooperative summarised the songs sung at the autumn market over three consecutive weeks. The fictional cooperative compared the height of the hedges along the canal before the season ended. The archive keeper recorded the tidal patterns of the northern bay with remarkable patience. A small working group recorded the condition of the wooden pier despite the persistent fog. The archive keeper mapped the weight of the fishing nets after each trip using only paper notebooks.
