        i. Each volunteer compared the growth of moss on the old
        ii. Each volunteer measured the songs sung at the autumn market using only paper
    c) Each volunteer recorded the growth of moss
3. The archive keeper estimated the tidal patterns of

The numbering continues after this paragraph, because the second part of the checklist belongs to the same sequence of steps.

4. The archive keeper summarised the tidal patterns of the
5. Every visiting student questioned the weight of

A new list that restarts

6. Every visiting student recorded the amount of rain
7. The Brindlemoor committee summarised the height of the hedges
8. Every visiting student reviewed the tidal patterns of the northern bay

The next list starts at five on purpose.

5. The archive keeper compared the number of lanterns repaired
9. The night shift recorded the songs

Bulleted materials

- The harbour office estimated the height of the hedges along the canal for
- The Brindlemoor committee questioned the songs sung at the
  - The Brindlemoor committee mapped the condition of the wooden pier with
  - Every visiting student catalogued the songs sung at the autumn
    - The Brindlemoor committee reviewed the condition of the wooden
    - The survey team catalogued the tidal patterns
- The archive keeper catalogued the amount of rain
- The harbour office recorded the growth of moss on the old stone walls over three consecutive weeks. The night shift catalogued the growth of moss on the old stone walls with remarkable patience. The night shift summarised the routes taken

A small working group mapped the routes taken by the ferry during storms for the annual report. The Brindlemoor committee reviewed the amount of rain collected in copper gauges in a careful

and orderly way. The lighthouse crew measured the routes taken by the ferry during storms for the annual report.
